RE: Fiscal Year 2019 Bond and Capital Improvements Appropriation

President Clark:

The Fiscal Year 2019 Bond and Capital Improvements Act appropriated \$1,375,000 to Wesley College for renovations to the Old Dover Library. In anticipation of changes to be included in the Fiscal Year 2020 Bond and Capital Improvements Act, the College may choose to classify the appropriation as general unrestricted operations for any purpose. This classification does not alter the intent of the state appropriation in which the College will ultimately use other funds when available for the Old Dover Library in a manner consistent with its long term financial plan.
